

A14 GLASS POLISHING COMPOUND

Available Sizes:

Description:

Upgraded from traditional glass polishing powder, this product offers a safe and easy application without damaging the vehicle. Featuring 12,000-mesh ultra-fine abrasive particles, it effectively removes stubborn stains, oil film, water spots, scale, resin, and coating residue from glass surfaces. Additionally, it provides glass scratch polishing and restoration, reducing fine scratches, swirl marks, and sun patterns for a clearer, more polished finish.

Ingredients:

Deionized Water, Cerium Oxide, Dispersant NNO.

Instructions:

1. Thoroughly clean and damp the glass surface before to application (use water to prevent drying).
2. Shake well before applying it on the wool felt pad.
3. Smooth the polish agent onto the surface until it does not spread.
4. Rinse the polish agent completely with water.

Caution:

- Before application, thoroughly clean the glass surface to ensure no particle residue, preventing scratches during polishing.
- For minor scratches (e.g., 200-grit sandpaper scratches), polish repeatedly in a small area for 5-30 minutes, depending on the glass condition.
- This product is ineffective for deep scratches or damaged areas where unevenness can be felt by touch or stone chip damage is present.
- **Keep out of reach of children.**

Restrict Area:

Coating, Reasin-Type Rearview Mirror

WARNING:

Harmful if swallowed. Causes skin irritation. Causes serious eye damage.

SAFETY PRECAUTIONS:

Wash thoroughly after handling. Do not eat, drink or smoke when using this product. Wear eye protection/face protection. Wear protective gloves/protective clothing.

FIRST AID:

Eye Flush with cold water for at least 15 minutes. Seek medical attention if problems persists.
Skin If skin contact causes irritation remove contaminated clothing and wash thoroughly with soap and water.
Ingestion Do not induce vomiting. Give nothing by mouth. If patient continues to be distressed seek medical attention immediately.
