

## A2 PRE - WASH

### Available Sizes:

### Description:

This product with its exceptional long-lasting cling qualities and penetrates deeply to dissolve any remaining impurities on the surface and rapidly softens tough dirt, dust, and mud. Because of its balanced density, the foam doesn't clump or slip, guaranteeing uniform coverage of every detail. Rinsing effectively removes large particles that have adhered to the surface, reducing scratches during the washing process.

### Ingredients:

Surfactant, sodium benzoate, deionized water

### PH:7

### Dilution Ratios:

- PA Bottle: 1:10
- Hand pressure sprayer: 1:300

### Instruction:

1. Dilute the cleaner to the required ratio and pour it into a PA bottle.
2. Shake well, then use a water blaster to spray foam evenly over the car.
3. Let it sit for about 2 minutes to soften and lift dirt naturally.
4. Rinse thoroughly with a water blaster to remove all foam and leave the paint looking fresh.

### Caution:

- Do not store in high temperatures or direct sunlight.
- This product is an industrial-grade cleaner; do not use it for other purposes.
- **Keep out of reach of children.** In case of eye contact or accidental ingestion, rinse thoroughly with water and seek medical attention immediately.
- Slight sedimentation may occur, which is normal and does not affect product performance.

**WARNING**
