

A9 HIGH - GLOSS CERAMIC FOAM

Available Sizes:

Description:

It combines cleaning and ceramic coating ingredients to provide an exceptional car wash solution. In addition to deep cleaning the surface, it does not corrode waxed. The ceramic coating ingredient creates a hydrophobic glossy coating that effectively prevents dirt from adhering to the surface. While powerfully cleaning, it also quickly boosts the gloss of the surface and brings longer-lasting protection to the surface.

Ingredients:

Surfactants, gloss-enhancing water-repellent emulsion, and deionized water.

PH:7

Dilution Ratios:

- PA Bottle: 1:8
- Water Bucket : 1:200

Instruction:

1. Mix the detergent to the desired ratio, pour it into a PA bottle, and shake well.
2. Use a water blaster to spray foam evenly over the vehicle.
3. Gently clean the surface with a wash mitt or sponge.
4. Rinse off all foam thoroughly using a water blaster.

Caution:

- Do not be exposed to high temperatures or direct sunlight.
- This product is for industrial cleaning use only; do not misuse it.
- **Keep out of reach of children.**
- In case of eye contact or ingestion, rinse immediately with water and seek medical attention.
- This product may contain slight sedimentation, which is normal and does not affect its performance.

WARNING

Car Wash
