NO.1 POLISHING COMPOUND - COARSE POLISHING

Available Sizes:

Description:

No.1 Polishing Compound is a water-based fusion abrasive for surfaces that easily remove defects, acid rain marks, etching. It can be used as a polishing base to quickly remove deep scratches and aged surfaces, leaving the surface shiny and new.

Ingredients:

High-strength alumina, mineral oil, water

Features:

1. Removes surface sanding marks from 1500+ grit and eliminates moderate scratches
2. Suitable for DA, RO and GA machines
3. Ensures your coating bonds properly and lasts its longest
4. Follow-up with No. 2 polishing compound for perfect results

Caution:

- Do not store in high temperatures or direct sunlight.
- In case of accidental eye contact or ingestion, rinse immediately with water and seek medical attention.
- **Keep out of reach of children.**

WARNING:

Harmful if swallowed. Moderately irritating to eyes

SAFETY PRECAUTIONS:

Keep well away from heat, sparks and open flame. Keep closed when not in use. Do not eat, drink or smoke whilst using. Use only non-sparking tools. Avoid breathing vapour, use with adequate ventilation. When using wear nitrile gloves, goggles and respirator. Store in original container away from food. Dispose of empty container in a safe manner.

FIRST AID:

Eye	Flush with cold water for at least 15 minutes. Seek medical attention if problems persists.
Skin	If skin contact causes irritation remove contaminated clothing and wash thoroughly with soap and water.
Ingestion	Do not induce vomiting. Give nothing by mouth. If patient continues to be distressed seek medical attention immediately.
Inhalation	Remove to fresh air. If breathing is difficult seek medical attention immediately.

If medical advice is needed have the product container/label at hand. In an emergency phone the National Poison Centre.(24 hrs): 0800 POISON[764 766].
