

Section 1 - Production and Company Identification

Product information**Product name:** Tar Remover**Production Code:** A7**Production Brand:** KLCB**Relevant identified uses of the substance or mixture and uses advised against**

Use: No information available.

Uses advised against: No information available.

Supplier Information Manufacturers / Supplier

Importer: BMB Autocare Ltd

Address: 10/6 Brick Street, Henderson, Auckland 0610

Telephone: +64 9 218 9560 [9.30 am to 5.30pm – Monday to Saturday]

Emergency Telephone: National Poison Center (24 hours): 0800 POISON [764 766]

Section 2 -Hazard information

Classification of substances or mixtures:

Flammable Liquids Category 2

Acute Toxicity (Oral) Category 4

Skin Irritation Category 2

Eye Irritation Category 2

Specific Target Organ Toxicity - Repeated Exposure Category 2

Aquatic chronic toxicity Category 4

GHS07

GHS02

GHS09

GHS08

Warning language: warn!**Prevention note:** P210 Keep away from heat sources, thermal surfaces, sparks, open fires, and other ignition sources. no smoking.

P233 Keep the container closed.

P240 container and loading equipment are grounded and potential connection.

P241 uses explosion-proof "electrical / ventilation / lighting /..." equipment.

P242 uses tools that do not generate sparks.

P243 took action to prevent electrostatic discharge.

P264 + P265 Clean the hands thoroughly after operation [and other body contaminated areas]. Don't touch your eyes. P280 wear protective gloves / wear protective clothing / wear protective eye mask / protective mask / hearing

protection device...

Emergency measures: P332 + P317 Skin irritation: seek medical attention.

P305 + P351 + P338 If entering the eye: carefully rinse with water for a few minutes, wear contact lenses and easily remove, remove the contact lenses, and continue to rinse.

P303 + P361 + P353 such as skin (or hair) is contaminated: Remove all contaminated clothing immediately. Wash the skin with water [or shower].

P337 + P317 if eye irritation continues.

P370 + P378 If a fire, use alcohol resistant foam, dry powder, carbon dioxide extinguishing medium to extinguish the fire.

Storage:

No relevant data.

Other hazards

No relevant data.

Section 3 - Composition / composition Information

Chemical characteristics: the mixture.

Product: It consists of the following components:

Constituent	CAS No.	Thickness	EC No.
ISOPARAFFIN L	64742-48-9	80%	265-150-3
Xylene	1330-20-7	20%	215-535-7

Section 4 -First-aid measures

If inhaled

After inhalation: fresh air.

In case of skin contact

Take off immediately all contaminated clothing. Rinse skin with water/shower.

In case of eye contact

After eye contact: rinse out with plenty of water. Remove contact lenses.

If swallowed

Rinse mouth thoroughly with water. Do NOT induce vomiting unless directed by medical personnel. Never give anything by mouth to an unconscious person. Seek medical attention immediately.

Most important symptoms and effects, both section 11

Acute symptoms: No specific data available for this product.
Delayed effects: No data available on delayed health effects from exposure

Protection of first-aiders

For personal protection see section 8.

Notes to physician

No data available

Section 5 - Fire Protection Measures

Fire-extinguishing medium

Use a water spray, dry chemicals, chemical foam, or carbon dioxide.

Special hazards arising from this substance or mixture

No data available.

Advice to firefighters

Wear IN MSHA / NIOSH (approved or equivalent) pressure-required self-contained respirator and comprehensive protective equipment in any fire.

Section 6- Accident release measures

Personal protection, protection equipment and emergency procedures

Avoid inhalation of dusts.

Evacuate the danger area, observe emergency procedures, consult an expert.

Advice for emergency responders: For personal protection see section 8.

Safety Data Sheet

Tar remover

Version 1.1

Revision Date: 20/12/2025

Print Date: 26/12/2025

Avoid contact with the skin and the eyes. Non-emergency personnel should evacuate the relevant area immediately.

Emergency personnel shall be equipped with appropriate personal protective equipment (see Part 8)

Environmental protection measures

Avoid releasing the environment. Avoid pouring water into drains, surface water, and ground water.

Control and cleaning methods and materials

It is best to clean with a detergent, by not using a solvent. Control overflow and then place them in containers for disposal per local regulations.

Reference to other parts

See Section 7 for safety disposal information. See Part 8 for personal protective equipment information. See Part 13 for discarding information.

Section 7-Handling and storage

Recommended equipment and procedures

Change Contaminated Clothing. Wash hands after working with substance

Further information on storage conditions: Pay attention to ventilation. Seal the container in a dry, cool, and well-ventilated place.

Recommend storage temperature: 15-25 °C

Section 8 - Exposure Control & Personal Protection

Exposure Controls

Engineering Controls:

Ensure adequate ventilation, especially in confined areas. Use local exhaust ventilation where dusts, mists, or vapours may be generated. Maintain air concentrations below occupational exposure limits.

Personal Protective Equipment (PPE):

Eye/Face Protection:

Wear chemical safety goggles or face shield when handling this product. Standard prescription glasses do not provide adequate protection and must not be relied upon as safety eyewear.

Hand Protection:

Wear protective gloves resistant to chemicals. Gloves should be inspected before use and replaced regularly.

Skin and Body Protection:

Wear appropriate protective clothing to prevent skin contact. Contaminated work clothing must not be taken home and should be laundered separately. Wash hands and exposed skin thoroughly after handling. Remove contaminated clothing and wash before reuse.

Respiratory Protection:

Normally not required with adequate ventilation. If airborne concentrations exceed or are likely to exceed exposure limits, use appropriate respiratory protection:

All respiratory protective equipment must be approved to AS/NZS 1716 and used in accordance with a respiratory protection program.

Environmental Exposure Controls:

Prevent release to the environment. Comply with the Resource Management Act 1991 and regional council requirements. Do not allow product to enter drains, waterways, or soil. Contain spills and dispose of in accordance with local and national regulations.

Section 9 -Physical and chemical properties

Information on the basic physicochemical properties

Appearance / shape:	Liquid
Color	Transparent
Smell	No data is available
PH Value	7
Melting Point/Setting point	No data is available
Boiling point/boiling range	No data is available
Flash point	30-40 °C
Evaporation Speed	No data is available
Flammability	Flammable liquid
Vapor Pressure	No data is available
Relative density	0.8
Solubility/miscibility	Insoluble
Risk of explosion	Yes
Odor the reshold	No data is available

Other information

No data available.

Section 10 -Stability and reactivity

Reactivity

No data available.

Chemical stability

The mixture was stable under the handling and storage conditions recommended in Part 7.

Potential of hazardous reactions

No data available.

Conditions that should be avoided

Stay away from the fire.

Incompatible materials

No data available.

Hazardous decomposition products

No data available.

Section 11-Toxicology information

Oral information	No data is available.
Percutaneous	No data is available.
Inspiration	No data is available.
Acute toxicity	No data is available.
Skin corrosion / irritation	Category 2
Ocular hazard / irritation	Category 2
Respiratory or skin allergy	No data is available.
Toxicence kinetics, metabolism and distribution	No data is available.
Effect of CMR (carcinogenic, genetic mutation, reproductive toxicity)	No data is available.
Germ cell mutagenicity	No data is available.

Tar remover

Version 1.1

Revision Date: 20/12/2025

Print Date: 26/12/2025

Carcinogenicity	No data is available.
Reproductive toxicity	No data is available.
Specific target organ toxicity - Single contact	No data is available.
Specific target organ toxicity - repeated exposure	No data is available.
Inhalation hazard	No data is available.
LD50 / LC50 values associated with the classification	No data is available.

Section 12-Ecological information

Ecotoxicity

No data available

Persistence and degradability

Soluble in water, persistence is unlikely based on available information.

Bioaccumulation potential

No data available.

Fluidity in the soil

No data available.

Other adverse effects

No data is available.

Section 13 -Disposal considerations

Disposal Method:

Waste material must be disposed of in accordance with the national and local regulations. Leave chemicals in original containers. No mixing with other waste. Handle uncleaned containers like the product itself.

Section 14-Transport information

International Regulations

IATA-DGR

Not regulated as a dangerous good

UN/ID No.	: Not applicable
Proper shipping name	: Not applicable
Class	: Not applicable
Subsidiary risk	: Not applicable
Packing group	: Not applicable
Labels	: Not applicable
Packing instruction (cargo aircraft)	: Not applicable
Packing instruction (pas- senger aircraft)	: Not applicable

IMDG-Code

Not regulated as a dangerous good

UN number	: Not applicable
Proper shipping name	: Not applicable
Class	: Not applicable
Subsidiary risk	: Not applicable
Packing group	: Not applicable
Labels	: Not applicable
EmS Code	: Not applicable

Tar remover

Version 1.1
Marine pollutant

Revision Date: 20/12/2025
: Not applicable

Print Date: 26/12/2025

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code
Not applicable for product as supplied.

National Regulations NZS 5433

Not regulated as a dangerous good

UN number : Not applicable
Proper shipping name : Not applicable
Class : Not applicable
Subsidiary risk : Not applicable
Packing group : Not applicable
Labels : Not applicable
Hazchem Code : Not applicable

Special precautions for user Remarks :

Not classified as dangerous in the meaning of transport regulations.

Section 15-Administrative information

Safety, health and environmental regulations/legislation specific for the substance or mixture

Group Standard Allocation:	Cleaning Products (Flammable) Group Standard 2020
HSNO Approval Code:	HSR002528
Classifications:	3.1B, 6.1D, 6.3A, 6.4A, 6.9B, 9.1D
NZ Inventory of Chemicals:	All ingredients are listed in the NZ Inventory of Chemicals.
This substance triggers:	<p>Location Compliance Certificate 100L Certified Handler N/A Hazardous Areas 100L Emergency Response Plan 1000L Secondary Containment 1000L Secured substances 250L Signage 250L Fire extinguishers 250L (Quantity: 2)</p> <p>This substance is not required to be tracked. All workplace personnel handling this substance are required to be trained on the safe handling and PPE requirements for the hazards associated with this substance.</p>

Tolerable Exposure Limits (TEL)

Not applicable

Environmental Exposure Limits (EEL)

Not applicable

HSW Controls

Certified handler certificate not required.

Tracking hazardous substance not required.

Refer to the Health and Safety at Work (Hazardous Substances) Regulations 2017, for further information.
